- Research Elective 3

Year 2 Spring:

- ARCH 5053, Methods X – Tools of Practice 3
- ARCH 6056, Design X – Comprehensive Architecture II 6
- Research Elective 3
- Research Elective 3

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

This NAAB accredited degree program is designed for candidates holding a pre architecture degree or a non NAAB accredited degree in architecture who wish to pursue an NAAB accredited professional degree. The program offers the opportunity for advanced and specialized study of architecture and related disciplines as well as establishing the NAAB accredited degree credentials which are prerequisite to architectural licensing in most of the U.S. The amount of required prerequisite coursework is based on a review of a candidate's preceding coursework.

A student who has done satisfactory graduate work and has earned a 3.0 grade point average may file for master's candidacy.
