Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

NOTE: Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

†To be chosen from the **University-Wide General Education Approved Course List**. Three of these 12 hours must be upper-division (3000-4000). One of these courses should be an English course 2000-level or above. See list in the Class Schedule.

In the College of Engineering, in order to progress in your curriculum, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum. Please refer to the General Catalog for additional enrollment limitations.

Students must successfully complete prerequisite courses (with a minimum C grade) before proceeding to the next course.

• Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

§Technical Electives: **Pre-Medical**—One of the electives must be chosen from ZOO 3113, 3333, or 4843; the other elective must be selected from bioengineering courses (graduate credit) with prior faculty approval.

Biomedical Engineering—Technical electives must include CH E 5203 (offered alternate fall only) and an approved bioengineering elective (graduate credit).

#Pre-med students should consult their pre-med adviser as well as their Chemical Engineering adviser for necessary medical school information.

‡Technical Writing is a corequisite for CH E 3432.

♠ Students pursuing the Pre-Medical Elective pattern must enroll in CH E 5203, Bioengineering Principles (offered alternate fall semesters only). Students pursuing the Biomedical Elective pattern must enroll in a graduate-credit elective in engineering, science, or mathematics.

*This course fulfills the Computer Literacy Requirement for graduation as required by the Oklahoma State Regents for Higher Education.

♦ It is recommended that ENGR 2411, 2431, and 3431 be taken in the same semester. The courses are offered in sequential five-week blocks during the spring semester.

♣ Chemical engineering courses are sequential and usually offered only in the semester shown above. Note prerequisites on the back of this page.
