- = Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.
- ‡ = In order to progress in your curriculum, and as a specific graduation requirement, a grade of C or better is required in each major course. The requirement includes both Geology (GEOL) and Geophysics (GPHY) courses. Students must also successfully complete **major** prerequisite courses with a grade of C or better before proceeding to the next course.
- ¹ = To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.
- ² = GEOL 4413, 4513 and BIOL 5204 are taught in alternate years and specific semesters. Students should plan their coursework with this in mind so that graduation problems do not arise. The order in which these courses are taken must be approved by faculty adviser.
- ³ = One Geology course from the following: 1003, 1013, 1024, 1133, 3154, 3633, 4213, 4533, or other non-required geology courses as approved by adviser (notation must be placed on Degree Navigator). Upper-division courses require additional prerequisites.
- ⁴ = Only one of the following courses is required. GPHY 4413 is taught alternate fall semesters; GEOL 4223 is taught alternate spring semesters.
- ⁵ = GEOL 3333 is taught on an irregular basis and may be substituted for ENGL 3513, Technical Writing.

University-Wide General Education Requirements (minimum 40 hours)

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.
